SUBJ: FIFRA LABELS FOR TSCA ALCOHOLS

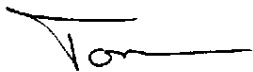

VISTA

The TSCA alcohols label content must be changed again. EPA has mandated that the labels of all outdoor agricultural use products which are applied to crops whose culture requires hand labor bear specific farmworker safety language. Tobacco is included in this category. The following statements must be added to the label:

1. Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.
2. It is a violation of Federal Law to use this product in a manner inconsistent with it's labeling.
3. Do not enter treated areas without protective clothing until sprays have dried.
4. AVISO! PRECAUCION ALUSUARIO: Si usted no lee ingles, no use este producto hasta que le etequeta haya sido explicado ampliamente.

These modifications are additions to the label. Items 1, 2, and 3 should be together under a new heading of Directions for Use.

Please give me a call to discuss our options on the revised labels. This additional language may require some design changes.
