FILE NAME: Colonial Sugar Refinery (CSR)

DATE: 1950

DOC#: CSR137

DOCUMENT DESCRIPTION: Govt Memo - Recommendation that Special Attention be Given to Conditions at Wittenoom Gorge, Plant & Mines

(16)

EXTRACT FROM LETTER ON FILE 19/50.

19/50

9th May 1950.

District Inspector of Mines,
CUE.

Inspections - Northern Fields.

I acknowledge receipt of your memo of the 27th ultimo, and note that you anticipate leaving on your Northern tour about the third week in May, provided that your car is returned in time.

I think that special attention might be given to conditions at Kittenoon Gorge, both in the plant and underground. Complaints are very frequent from this mine. I met Mr. Meagan, the new manager, recently and impressed on him that insufficient attention has been paid to safety regulations and ventilation in the past by this Company, and that we expect reasonable compliance with them in future, otherwise we will be forced to take corrective action.

STATE MINING ENGINEER.
