GREENSBORO

VICTORIAN FURNITURE CORP.
MONTGOMERY, ALABAMA

I just received a response from The Lawrence-McFadden Company on the lead content of products we purchase from them. In all cases, the percent of Pb is less than 0.01%.

Thus, to complete my response of December 23, 1970, the materials 474-AFS-2629, 474-AFS-2630, and 474-20045 all contain less than 1% lead and are safe for use on children's furniture.
