The PSYCHOLOGY of SELLING

"THE PSYCHOLOGY OF SELLING" is a theory only. The practice of selling is just this:

Find out what a great many people want. Tell them about it, individually and collectively, in the language and meaning that the average of those people would use to express his desire.

Success is certain under this policy.

R. L. Polk & Co. of California is prepared to help the businessman find out what is wanted and who wants it and to reach the buyers economically.

PAINT AND PAINT MANUFACTURERS**"McEVERLAST"****PROTECTIVE COATINGS**

Stops and Prevents Rust—Protects Wood from White Ants, Dry and Damp Rot

An absolute preservative for wood, metal or concrete—positively water-proof. Prevents rust, rot and corrosion. Unaffected by salt water. Highly alkali and acid resistant. Wood treated with it is made damp-proof and safe from termites (white ants). Excellent for ship bottoms as it is unaffected by salt water, stays clean and repels all sea life and growth.
