

1 The figure that we are asking that you
2 provide to her as a surviving spouse of Nollie Wood is
3 \$1,720,000.

4 Now, number eight should be easy to check
5 because it is, do you find by a preponderance of the
6 evidence that the marital relationship of Mr. and Mrs.
7 Wood was damaged as a result of his mesothelioma?

8 Yes.

9 It is no way anybody can go through what
10 they went through and not have their marital relation
11 damaged.

12 It is not a matter she didn't love him, or
13 they didn't love each other. Those are, in fact, the
14 last words she heard from him. She asked him, do you
15 still love me? And at that time all he could do is
16 just shake his head.

17 It is not about that. It is about how their
18 last days were spent in his behalf without any dignity
19 at all, not being able to die in peace.

20 So the figure that is up here is a figure
21 that you would assess in favor of Mrs. Wood
