Marine Paint, Engine White.
 Put up in 15% and 25%
 These are goods especially prepared for heated sur-
 faces. They are ground only in paste form and are to
 be thinned only with Turpentine. When so used they
 will not turn yellow, but remain perfectly white for a
 long time.

Marine White Lead.

Put up in Kegs, 12 1/2, 25, 35, 100 and 250.

Our Steamship White Lead is especially prepared for
 marine use, and is in all respects the best Lead in the
 market for that purpose. It will be found to be very
 white, of good body and very durable. It is more finely
 ground than other leads and consequently will be found
 to be much more economical to use by reason of the in-
 creased surface it will cover. It is also especially pre-
 pared to resist the destructive action of the water which
 tends to decompose most leads so that they soon wash off.
