Salt Lake City, Utah - 84119

Dear Ken:

In relation to the W. R. Grace Co's. questions on asbestos hygiene, can you supply me with the following information:

1. Maximum dust level permitted in different states and industries or references
2. Data and references on critical particle size
3. Recommendations on how to measure dust level - equipment and procedure - I have copies of the Asbestos Textile Institute "Method for Determining Asbestos Dust Concentrations, Oct. 3, 1963"
4. Mask and filter recommendations
5. References on National and State regulations related to asbestos and its products

Very truly yours,

E. A. Farrell EFS 0000034
