Richmond, VA 23229

Dear Mr. Storm:

This letter is a follow up to our telephone conversation of August 18, 1981 regarding your request for copies of the booklet "A/C Pipe and Drinking Water." It is our understanding Infilco Degremont, Inc. specifies A/C pipe and "baffles" for water and wastewater treatment installations and the booklet will be used to overcome customer objections to the use of these products.

We are pleased to enclose 100 copies for use by your field representatives. Additional copies are available at nominal cost from this office upon request. More current information on the safety of A/C pipe will be forwarded in mid-September. In addition, your name will be placed on the mailing list for "A/C Advisory", an information service on late breaking developments relevant to A/C pipe.

If we can be of further assistance, please do not hesitate to call. Thanks for your cooperation in this effort.

Very truly yours,

A/C PIPE PRODUCERS ASSOCIATION
