YARWAY CORPORATION
Blue Bell, PA 19422Attention: Richard J. Nash
Buyer

Dear Dick:

In response to your letter on our Flexite Super, this material is suitable as a direct substitute for asbestos and is superior to asbestos in its sealing abilities.

Current pricing is 10% above our existing prices on asbestos filled gaskets with delivery the same.

Flexite Super has not been approved by the U.S. Navy although we feel that approval is in the near future.

We do have a non asbestos which is the only non graphite material which the Navy has approved. This material Regular Flexite is available for delivery as others; however, the pricing is about 50% higher than asbestos.

If you should need any additional information, please let us know and someone will call at your convenience.

Very truly yours,

FLEXITALLIC GASKET COMPANY INC.
