

LEAD INDUSTRIES ASSOCIATION

430 LEXINGTON AVENUE

NEW YORK 17, N. Y.

METALLIC LEAD PRODUCTS DIVISION

October 23, 1950

SUBJECT: PROGRESS REPORT 1950
AND PROPOSED PROGRAM 1951

To Members of the Metallic Lead
 Products Division;

Attached is a Progress Report of the activities of this Division covering the first nine months of 1950, together with a brief summary of the Report (pages 4-5). Also included is a financial statement covering actual operations for nine months and an estimate for the full year (page 6).

Inasmuch as this Division approved a new program as recently as May, 1950, which program is just going into effect, it seems illogical to consider any change for 1951. Therefore, each member of the Division's Advisory Committee, composed of

Messrs. W. F. Murdock, Eagle-Picher Co.
 Leo Halpern, Federated Metals Division of
 American Smelting & Refining Co.
 W. J. Welch, National Lead Co.
 C. R. Ince, St. Joseph Lead Co.
 G. H. LeFevre, United States Smelting
 Refining & Mining Co.

has been consulted individually for a recommendation to the Division.

The Committee unanimously recommends to the Division that the program be continued throughout 1951 on the same basis approved by the Division last May (outlined in our letter of May 3, 1950) to be conducted within the limits of funds available.

So that the Division's wishes may be submitted without delay to the Board of Directors of the Association, won't you please execute the enclosed ballot and return it to me promptly?

Very truly yours,

Robert L. Ziegler
 Secretary
