

The same photograph that showed the mysterious band of gas also showed a similar band at the equator that was known to exist from measurements made by unmanned

This, the whitish band, is

called the lyman beta band of the spectrum. These and more than 200 other photographs were made with a 60-pound camera that was set up by Capt. John W.

Gerald Nelson, Adpen Air-
ways, Aspen, Colo., said there
such a thing as giving the
passenger more information
than he needs. Nelson said
small airlines have problems
specially with denied-
boarding compensation claims
from doctors and lawyers.

On the other side of the pic-
ture, Reuvin Feiguine of
Trans World Airlines said
Ralph Nader and consumer-
ism were some of the best
things that have happened to
the United States.

Yohe remarked that 8,000
complaints from 150 million
passengers in a year actually
represented a very fine rec-
ord. "A lot of the complaints
could have been avoided if
there were better communica-
tions," he said.
