DON G. FOWLER  
DIRECTOR OF HEALTH AND SAFETY

Dear Colleague:

We are happy to send to you with our compliments the first issue of the quarterly publication, Kettering Abstracts of the Biological and Related Aspects of Lead and its Compounds. Long available only to staff members of the Kettering Laboratory, this summary of the world's literature has been prepared for the past forty years, and now are we pleased to make a wider distribution possible.

The abstracts are being made available to a selected list of specialists in the medical, industrial hygiene and allied professions. We hope that you will find this publication, and the quarterly supplements, of value in your work. Your comments and suggestions are always welcome.

Very truly yours,

Don G. Fowler
