Section 203.101 Definitions

Unless a different meaning of the term is clear from its context, the definitions of terms used for this Part shall be the same as those used in the Pollution Control Board (Board) Rules and Regulations, 35 Ill. Adm. Code 201 and 211.

Section 203.103 Actual Construction

"Actual Construction" means in general, initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying of underground pipework, and erection of permanent storage structures. With respect to a change in method of operation, this term refers to those on-site activities other than preparatory activities which mark the initiation of the change.

Section 203.104 Actual Emissions

"Actual Emissions" means the actual rate of annual emissions of a pollutant from an emissions unit as of a particular date. Actual emissions are equal to the average rate in tons per year, at which the emissions unit actually emitted the pollutant during the two-year period
