Alleged Lead Poisoning

May 7, 1946

I wonder if you would be good enough to let me know the circumstances referred to in Herb Nixon's Weekly Letter of April 2 where he mentions an alleged lead poisoning of a former employee of Phillips Petroleum Company. Our file does not show the details, and naturally when Dr. Kehoe picked up an alleged lead poisoning case, he was most concerned.

Also, I have in mind to send out a Circular Letter that Dr. Kehoe wishes to be kept informed on all alleged poisonings as a little reminder to all the Safety Engineers which might well be in order.

Yours very truly,

O. B. LEWIS
