September 19, 1961

OPEN HEARTH - NO. 4 FURNACE REBUILD
DETRICK SUSPENDED REGENERATOR ROOF

(File 9-A-45)

Herewith please find one (1) print of W.S.C. Drawing
9-15603, Rev. (2) with corrected dimension marked in red crayon.

Please forward this print to the H. H. Detrick Company
for their record.

This change does not affect their proposal for the
suspended roofs of the regenerators, but does affect the
suspended roofs over the fantails.

The fantail roofs are to be furnished by the G. P.
Reintjes Co., however for the record we wish H. H. Detrick to
make necessary corrections to their drawing for the fantail
roofs.

H. R. Ford
CHIEF PLANT ENGINEER
