Dear Isabel,

Please find the attached filled Speaker Request Form.

Please also see the agenda for the Workshop session:

The Role of Voluntary Action in Methane Management due to take place from 10:20 AM – 11:40 AM on Friday June 29, 2018.

- <https://wgc2018.com/workshops-program/>

Voluntary mechanisms in the oil and gas industry play an important role in providing the tools and support necessary to implement successful, transparent methane management programs, whether at the company level or at a national level. This session will focus on how current partners are taking full advantage of their widely recognized voluntary programs, specifically the Global Methane Initiative, the Climate and Clean Air Coalition's Oil and Gas Methane Partnership, the US EPA's Methane Challenge Program, the ONE Future Coalition, and API's Environmental Partnership; resulting in increased operational efficiency, safety, and environmental benefits, in a cost-effective manner.

The proposed speaker line-up for this session will be as follows:

- **Moderator:** Brian M. Jones, Senior Vice President at M.J. Bradley & Associates, LLC (invited)
- Leonardo Gelpi, Environmental Engineer, Eni
- Melissa Adams, Chief Corporate Social Responsibility Officer, WGL Holdings/Washington Gas
- Richard Hyde, Director External Affairs, Southern Company Gas
- Vanessa Ryan, Senior Advisor, Shale Issues, Chevron Corporation
- Martha Herrera, Project Engineer, Innovation and Technology Center (ICP- Colombian Petroleum Institute), Ecopetrol (invited)

I have also attached a PDF of the full conference program.

Should you have any questions, please do not hesitate to contact me. Further information on the conference can be found at www.wgc2018.com.

Best regards,
Gergana

The form is updated accordingly. Also do we need to send the agenda for the Workshop as they ask in a separate document?

Thanks,
Gergana
