

LEAD INDUSTRIES ASSOCIATION

480 LEEDINGTON AVENUE

NEW YORK 17, N. Y.

Pigments and Chemicals Division

July 30, 1953

SUBJECT: STEEL STRUCTURES PAINT-
ING COUNCIL PRETREATMENT
SPECIFICATIONS

To Members of the Pigments and Chemicals Divisions:

Enclosed is a set of the PRETREATMENT SPECIFICATIONS just published by the Steel Structures Painting Council, of which the Lead Industries Association is a supporting member. Several months ago you received a set of the S. S. P. C. SURFACE PREPARATION SPECIFICATIONS and we also intend to send sets of the paint and paint system specifications as soon as they appear. These specifications will keep you informed of the progress of the Research Committee of the Council and may prove of value to your plant maintenance department.

Additional sets are available to our members through this office at sixty cents per copy, less a 33 1/3% discount.

Very truly yours,

C. J. Vander Valk
C. J. Vander Valk
Technical Director
