Dear Dr. Lodge:

Re: MS 1920-L "Models for the Relationship Between Blood Lead
and Air Lead"

I'm writing to inquire about the status of MS 1920-L. More than five months have passed since I sent you the revised version of this paper. I'm concerned that it may have gotten lost in a referee's "in-box". I would appreciate learning when you expect to make a decision concerning the suitability of this paper for Atmospheric Environment.

Thank you for your help and patience. I look forward to hearing from you.

Very truly yours,

ENGINEERING SERVICE DIVISION
