

1 I don't consider myself an expert in the
2 area of specific products, but I have read literature
3 regarding different occupations and incidences of
4 mesothelioma in different occupations.

5 Q Are you familiar from your research and
6 training with the general types of asbestos that have
7 been commercially used in the United States?

8 A Yes, sir, I am.

9 Q Dr. Gabrielson, as a pathologist, as part of
10 your daily practice, are you called upon to determine
11 if individuals have cancer?

12 A Yes, sir. That is something I do virtually
13 on a daily basis.

14 Q As part of your hospital practice, have you
15 been called upon to diagnose the disease
16 mesothelioma?

17 A Yes, sir, I have.

18 Q Over the course of your practice and your
19 career, could you estimate the number of cases of
20 mesothelioma that you have diagnosed?

21 A I think that is difficult to say. Including
