IMPORTANT:
CLOSE SPOUT AFTER USING
STORE IN DRY PLACE

Essential to their problem was the unimproved use made with *TRIMETHYL PHOSPHATE* to delat the hull and stored with clean water. Grease and oil must be removed with *TRIMETHYL PHOSPHATE* and stored with clean water. The improved *TRIMETHYL PHOSPHATE* solution is by passed in a system of warm water. Very dense, thick plaster surfaces should be dried with a suitable primer.

Interior finish

MIXING INSTRUCTIONS

APPLICATION DIRECTIONS

CAUTION—CONTAINS ASBESTOS FIBRES
AVOID CREATING MIST, BREATHING ASBESTOS MIST MAY CAUSE
SERIOUS BODY HARM.
