Subject: URGENTLY...WIRLWIND near FLORIDA...and AIR POLLUTION Region 3,4 and 6

<https://www.airvisual.com/earth>

Dear Sir/Madam,

Maybe You can try to prevent potential disaster in FLORIDA by ordering decreasing air pollution to the ZERO (0) US AQI (at least temporarily) in EPA Region 3,Region 4 and Region 6?

<https://www.airvisual.com/earth>

The wind from the South cannot go to the continent because it is blocked by the HEAVY,WORM,POLLUTED AIR from these regions.

And that is one of reasons why it is created a WIRLWIND (hurricane?) near TAMPA,FLORIDA.

Stopping any air pollution will open a PASSAGE for the wind to the central of the country and to decrease centripetal force of the wirlwind.

<https://www.airvisual.com/earth>

The same situation was near Arab Peninsula ~ten days ago , after huge air pollution from India,Pakistan,Iran,SA,Oman...

Why to repeat the same mistakes?

Maybe You can try something new?

What can You lose? Air pollution?

Very grateful,

Sincerely Yours,

Ela Lesiak
