A That is correct.

Q Am I correct that he found that in the area where they mined blue asbestos or crocidolite asbestos?

A That is correct.

Q And am I correct that that is really the first time there was a link between asbestos and mesothelioma?

A No. There were literature prior to that time that described that possible association.

Most researchers agree that in 1960s is the date the causal relationship was established.

Q We heard from Dr. Brody and he basically told us that is when it was discovered; is that the same thing?

MR. IGNATOWSKI: Objection.

THE COURT: Overruled.

A I am not sure what Dr. Brody means by discovered.

As an epidemiologist that is what we refer to as having sufficient information that is present
