ANSWERING
LETTER OF

SUBJECT SPRED HOUSE PAINT--Y-3600 LINE
 GLIDDEN LATEX HOUSE PAINT--Y-3040 LINE
CHICAGO ORDINANCE LEAD LAW

To conform to the Chicago lead law it has become necessary to reformulate subject paint lines to remove the lead driers.

We have issued 186's so that we can confirm the performance of these formula revisions. As we must do this during early spring, during adverse drying conditions, would you please give these batches a high priority for production. Sorry to ask for another rush job on top of the satin base rush, but appreciate anything you can do. Please advise when you have them scheduled.

All five batches will be filled in one gallon lined cans, as used for Spred Latex House Paint. Labels will be arranged for by Mr. R. Brenner to read as follows:

<u>Quantity Ordered</u>	<u>Label to Read</u>	<u>Contents</u>
50 gals.	LATEX HOUSE PAINT (SPRED QUALITY) EXM-72113-WHITE	Full 128 ozs.
100 gals.	LATEX HOUSE PAINT (SPRED QUALITY) EXM-72114-WHITE TINT BASE	Short 3 ozs. (125 ozs.)
50 gals.	LATEX HOUSE PAINT EXM-72115 - WHITE	Full 128 ozs.
100 gals.	LATEX HOUSE PAINT EXM-72116-TINTING WHITE	Short 3 ozs. (125 ozs.)
50 gals.	LATEX HOUSE PAINT (SPRED QUALITY) EXM-72099-WHITE TINT BASE	Short 3 ozs. (125 ozs.)

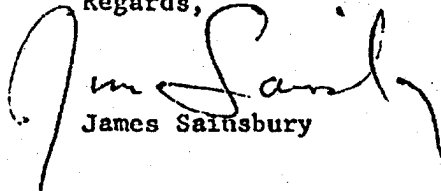

GLD007208

Call Dr. George Pekarek (Ext. 2324) or Mr. John Patrick (Ext. 2323) before making batch.

Please notify this Department when batches are filled ready to ship.

Thanks.

Regards,

A handwritten signature in cursive script, appearing to read "Jim Salisbury", is written over the typed name.
