[PFASs 2 April 20 webext Final Agenda.docx](#)

Dear All,

Thanks for your feedback and your support.

Based on the new doodle, I confirm that we will try to have our "home-webex", as originally scheduled.

Indeed, we should try to be flexible and if we manage let's try to keep it even shorter than currently planned.

I take the opportunity to share with you the final agenda and to kindly ask you to define, if not done yet, who is going to speak where (MS)CA is indicated.
You can inform me by email of course.

We also take the opportunity to share with you an excel table prepared by us, indicating the status of all fluorinated substances (not only perfluorinated) on the CoRAP.
Please note that it contains some information which is not public so it can only be shared with the authorities and Commission.

We hope you can give us an initial update on the status of these cases on 2 April.
You can find the table here:

2020_April_Webex

Browse url: <https://webgate.ec.europa.eu/s-circabc/w/browse/256c2b7b-8a05-4dee-876b-523b36c65160>

We are looking forward to speaking with you!

Of course, we will do our best to keep the ones not able to join this webex, informed.

Have a safe day!

Kind Regards
