GENERAL FORM 36,467
MEMORANDUM

Dr Hattox

DATE May 25, 1953

TO : Mr. M. B. Amis
Mr. J. P. Cogan
AT Dr. J. E. Miller

FROM : E. M. Hattox

PETROLEUM PRODUCTS LAB.
E. M. HATTOX

Petroleum Products Laboratory

As you know, our contract with Drs. Choppin and West includes the complete analysis of six special samples in addition to the regular semi-monthly samples. It has been suggested that at least one special sample be taken along the west side of Plancor 572, preferably at a time when HCl is detected at sample point number 5 or number 3. Further, it has been suggested that one of the samples be near Schuylkill's plant at a time when fumes from the operation are coming into the refinery. Will you please let me know when you feel it is desirable to have a special sample run at either of these two locations or at any other location within the refinery.

Either 3:00 AM 5/3 or 7:00 AM 5/6 would have been a good time. There was a heavy smog over the Refinery + Chem. Prod. area at both times. Usually, however, these clear up before we could get Choppin or West out here.

Amis 5/26
