Dear Dr. Boyd:

We have two employees with a six month blood lead level
average at 50UG or above.

[REDACTED] - 53
[REDACTED] - 50

Would you please proceed with the monitoring as detailed
in Dr. Petersen's letter.

Yours truly,

Memorandum

To: C. Hellings
Location: Wayne
From: H. C. Gaffney
Location: Chicago Plant
Extension:
Subject:

Date: October 24, 1983

Reference:

Copy to: J. Caporossi - NA

On October 20th, a letter was sent to Mr. James Concannon in accordance with our MRP variance application and receiving the interim order. This letter stated there were two employees of the Chicago Plant with a six month blood lead average of 50 or higher.

However, [REDACTED] now has the following blood lead results:

May thru October - 3 tests - average 45

February thru October - 6 tests - average 49

He no longer should be included in our interim order reporting. How do you recommend we handle this?

Dear Dr. Boyd;

We will be sending C. Davis and E. Maye to your clinic in line with the OSHA Medical Removal Program Variance granted to this plant.

Please perform, on both, the two month review as outlined in Dr. Petersen's letter of September 19, 1983 and forward your report to me as soon as possible.

This data I must forward to the OSHA office in Washington, D.C..

Sincerely,

A handwritten signature in dark ink, appearing to read 'H. C. Gaffney'.
