OCF-125 was received into evidence.)

MR. SMITH: June 21, 1967. This is a reprint by our office. It is to Mr. Thomas whose deposition we read earlier in the trial.

At this time he was a vice-president of the corporation, later became president and CEO. Mr. Shannon, director of research; Mr. Ladd, V-P; Mr. McEvoy, director of research, and Sadosky was a sales manager.

Kaylo replacement of asbestos. I called Mr. Ladd per your request concerning the Wall Street Journal article on the high rate of cancer noted among smokers in the asbestos industry.

Ladd does not want us to accelerate or transfer our effort to the replacement of the asbestos program.

He pointed out that we have a $10 million Kaylo operation. He wants us as a team to be in a position to tell management what fibers we can use to reinforce Kaylo if and when the day arrives when the whole industry is forced to remove asbestos from their
