Notes	
1	The <i>Description of Use</i> section are for company's to complete. To the best of your company's ability, please list each PFAS substance and a description of how that PFAS is used. Claigan does not expect a deep expertise, we just need to know what uses you believe you have and ensure that it is being included in the derogation. Claigan will determine what specific derogation text should be produced to cover your uses. We will ask questions if we need clarification.
2	Claigan will review uses and identify if they are being covered under the submission (to be completed by Claigan).
3	If covered, the expected Claigan derogation number (to be completed by Claigan).
