Dear Bill:

Enclosed with this letter is the tape on an interview I conducted with Elmer Wheeler, Monsanto's manager of environmental health. Also included is a copy of the rough script I used in asking the questions.

The tape runs about 11 minutes but I think you should be able to cut it to 3½ minutes as you go back and dub in your voice over mine.

I hope this suffices for your syndicated radio show. Incidentally, I just saw a copy of your August 3 article in the Hartford Times. While we frankly hate to see this matter publicized, we certainly can't complain about your type of article. It was factual and complete; you can't ask for any more.

Sincerely,

Tom C. Ford
