

The Heat Transfer Products Department of American-Standard
 provides a dependable source for all of your heat transfer
 needs. Industry leadership is strived for
 through the utilization of time-tested equip-
 ment, research facilities, coordinated engineering
 service, years of practical experience, and after-the-sale
 responsibility. Product specialists are always ready to assist
 you regardless of the simplicity or complexity of your heat
 transfer requirements.

Join the ranks of some of the world's most discriminating
 buyers who have been satisfied with American-Standard
 heat exchanger and boiler products. You are certain to find
 similar satisfaction whether you're a user, contractor, or
 specifier. Also, you can benefit from our experience as
 countless others have—99 years of boiler know-how and
 50 years of progress in the heat exchanger industry.
