Dr. Robert A. Kehoe
Kettering Laboratory of Applied Physiology
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

Let me tell you again how much I enjoyed being with you and hearing your presentation at our Medical Conference in Buffalo and Lockport. You will no doubt recall Mr. Jenkins' talking with you and his requesting that our file of correspondence and reports pertinent to the Gradwohl Laboratories be forwarded to you.

Due to the fact that my vacation started the morning following the end of the conference the matter has not been attended to, but I have gone through the material and arranged it in the order in which I believe it will be the easiest to look over. You will find in it Dr. Gradwohl's reports and also on lined paper the reports on duplicate slides that were examined here in Lockport by Miss Millar.

If there are any questions regarding this file of material that I can answer, I shall only be too glad to help you out.

Very truly yours

C. M. Hillenbrand
