BTO; meeting with CropLife on MP; 29/01/2021

CropLife Europe:

[REDACTED]

Commission:

[REDACTED], [REDACTED] (GROW D1)
[REDACTED] (ENV B2)

Croplife requested a meeting in order to engage with COM early in the process and provide constructive input as regards the restriction of microplastics. [REDACTED]

CropLife also expressed interest in contributing with the implementation of the CSS, in particular on PFAS, [REDACTED]

[REDACTED] On PFAS, COM intentions are explained in the CSS; the idea is to use an internationally-based definition (discussions ongoing at OECD) that will also be used for restrictions under REACH. The current thinking is to ban PFAS substances but to allow derogations (e.g. fire-fighting foams, where ECHA is preparing a restriction dossier; a group of MS is currently preparing another restriction dossier, where further derogations might be foreseen).
