

1 Q It was not recommended to use an ordinary shop
2 vacuum because it would disperse asbestos; correct?

3 A Right. But you see that's better than nothing.
4 Nothing's what went on before.

5 Q Exhibit J bears a date of August 26th, 1975, which
6 obviously would have been before the December 1975 seminar
7 that's referenced. And you are making arrangements for it
8 even October of 1975; correct?

9 A Yes.

10 Q Your memo here as executive director is to all
11 members of the Asbestos Study Committee. You indicate in
12 this memorandum that it's to be sent to active members and
13 regional members with U.S. dues level. Could you tell me
14 what that means?

15 A Active members were United States members, United
16 States manufacturers and we had what you call regional
17 members. Regional members are non-United States members. We
18 did not give them permission to use our copyrighted material
19 in marketing their products in the United States. But if
20 they paid the same dues level that the United States active
21 members paid, they could have those rights. So that's for
22 those members. We didn't send it to other people who are
23 supposedly just shipping their stuff to non-United States
