Bilateral meeting with [REDACTED] Honeywell, [REDACTED]

18 January from 11h to 11h20

Davos, Switzerland

Minutes

[REDACTED] Honeywell explained the complexities of PFAS – underlying that there is an important variety of them, and a different degree as to how harmful for the environment they are, as well as some chemicals are very much needed and still irreplaceable, notably for the materials essential for the green transition. EVP took note.

Participants: EVP and [REDACTED]
