R. T. Clark	- Spgfld.	C. A. Peters
C. L. Doucette	- Spgfld.	J. S. Putnam
H. K. Eckert	-	J. V. Waggoner
→ S. L. Hunter		

Attached to your copy of this memo is a requisition for 750,000 pounds of VCM. You said this material is to be shipped from Carbide's plant at South Charleston, West Va., in Monsanto tank cars. The price is 12 cents per pound, less 5% resale discount, f.o.b. South Charleston, with freight equalized with Painsville, Ohio.

This VCM will be available between May 15 and June 15, and will be shipped to Springfield. You agreed to ask Carbide to furnish us their best shipping schedule. Then, R. C. Oldham and C. L. Doucette will work together, to see that tank cars are at South Charleston as needed.

Please ask Carbide to teletype R. C. Oldham the car number and date of each shipment. Also, two copies of the bill of lading should be sent immediately to R. C. Oldham covering each shipment.
