

October 21, 1929

Dr. Francis D. Patterson,
P. O. Box 4061,
W. Philadelphia Station,
Philadelphia, Pa.

Dear Dr. Patterson:

I received a letter a few days ago from Mr. L. C. Goad, Superintendent of the Muncie, Indiana storage battery plant of the Delco Remy Corporation. Mr. Goad tells me that most of the suggestions which I made when I saw them some months ago have been carried out and that he feels that the plant is in excellent condition at this time. He has assured me that he would be pleased to have you visit the plant and that any time it is convenient for us to come will be satisfactory to him if he is given notice. If you will set a date that is convenient for you and let me know, I will arrange the matter, when we can go together to see what they have done. Almost any time in the next month will be satisfactory for me as near as I am able to anticipate now. I should be very glad to see you and I hope you will so plan as to spend at least a little while in Cincinnati so that I can have you meet Mrs. Kehoe and partake of our hospitality.

Kindest regards.

Cordially yours,

RAK:WJ
