Dr. Robert A. Nehoe
Lettering Lab of Applied Physiology
College of Medicine
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Nehoe:

I sent your comments of Belknap's paper on to Dr. Belknap. My only comment was that the word, "gross," five lines from the bottom, page 2, should be deleted. The use of this word is simply annoying to any author and in my estimation is needless.

Unless I hear from you to the contrary, I shall assume that you have no objections.

Sincerely yours,

Philip Dinker
