FROM John H. Butala AT Harmarville DATE January 31, 1978
TO Distribution AT REFERENCE 5.2.0
SUBJECT MCA VINYL CHLORIDE STUDIES:
ANCILLARY REPORTS

Attached hereto are two epidemiological studies of the occurrence of birth defects and related problems in a population exposed to vinyl chloride. The studies were noted but not discussed at the January 12 MCA meeting in Washington that I attended for Dr. Roy Gibson. (See attached memo of January 27.)
