Mr. Frank Akell

ASB 001890

Milchem Incorporated

MILICRAM

RECEIVED 13 FEB 1976

TO: P. Blazquez - London Milchem office
FROM: A. C. Perricone
CC:

DATE: February 11, 1976
SUBJECT: Flosal

Mr. Jack Sauber of Phillips Petroleum Company will be in London the last week in February. He will be arriving in London from Aberdeen. He does plan on a seminar with our people in Aberdeen beginning February 20.

I would suggest you talk to Jack concerning the necessary information required by the English health authorities on Flosal. You will find they will be cooperative and assist with whatever information you need.

Attached you will find some information regarding the application of Super Visbestos in compliance with U. S. OSHA requirements. If we can be of any further service please let us know.

TS

Sent a x c of everything to Gorny.

RB

* Specify that Flosal is chrysotile, not crocidolite (blue asbestos)
Explain bluish color? May be helpful.
