

The office which causing Katschke is employing in entangle us in the Formosa Strait is to finish—which is true—that the blockade of Quency can be broken only by bombarding the mainland. But the move for the guide is to prevent that the Formosa air force can't leave the shore batteries. We are being told that we should allow Chiang to attack the mainland and that he can do the job.

But this is not what Chiang means, and we must not allow ourselves to be deceived. What he means is that if we allow his planes to begin the attack, we will

Let us not be taken for a ride.
