AROCLOR 5460

Gerry Miller
Anniston

I am sending to you under separate cover a sample labeled "Chlorophenyl 5460". I received a request from V. J. Heroufousse to have it given a routine specification-type analysis and compare it to our Aroclor 5460. I have attached a copy of his request. Do you think that it is Aroclor 5460.

Please reply directly to Heroufousse and copy me in.

Thanks a lot.

Willis S. Clark
