Dr. R. A. Kehoe:

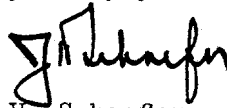

Dear Dr. Kehoe:

Regarding our conversation in Mr. Lewis' Office when you were last in New York concerning the file on data obtained from residue taken from tank cars containing Ethyl Gasoline. Our Plant and ourselves have searched our records and find nothing.

Normally, we keep correspondence three or four years and then, if it is of no particular value, discard it and I am afraid that what information we did have was destroyed.

I do vaguely recall that we did have some correspondence, and it is my feeling that it was between Dr. Machle, Mr. Walter, and myself.

Very truly yours,

J. H. Schaefer
