NEWSPLETTER

"Cooperation Requires Communication"

in P. Hasseu

October 8, 1962

To: All Supervision

Dr. Thomas F. Mancuso, former director of the Industrial Hygiene Division of the Ohio Department of Health, has been secured as medical director for our Company.

consulting

Dr. Mancuso left the Department of Health after serving seventeen years as the director to become a Research Professor at the University of Pittsburgh in the Department of Occupational Health. (He will continue to serve the University in this capacity.) He is the author of a number of reports and publications in the field of occupational health, and particularly in the field of asbestos fibers and their effect on health. He has contact with the Directors of Health in the various states, and the United States Public Health Service.

Dr. Mancuso will study conditions in the plant for possible effects on employee health. We believe we have done a lot and plan to do more - guided by expert advice.

Please co-operate fully with Dr. Mancuso in any information he may request.

H. J. Krippa
Plant Manager

November 21, 1962

Mr. L. A. Pechstein, Assistant Secretary
The Philip Carey Manufacturing Company
Lockland, Cincinnati 15, Ohio

Dear Mr. Pechstein: Occupational Health Program

Your authorization is sought to bring in a professional industrial hygiene engineer, Mr. Lee B. Fosdick, of Chicago, for a three-day survey of your plant in connection with the occupational health program being carried on by Dr. Thomas F. Mancuso.

His services are necessary to determine exactly what further engineering studies are necessary and in what areas and as to which hazards.

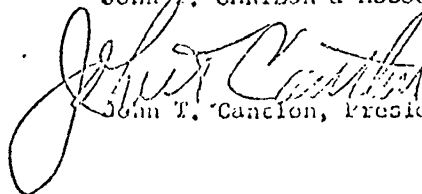

Dr. Mancuso, of course, has been working with your Personnel and Medical Departments and has inspected most of the plant and feels that at this point, these additional professional services are needed.

Mr. Fosdick is eminently qualified, and it happens that he would be available to spend the three days of December 17, 18 and 19, 1962, in your plant. He would spend December 15, 1962, with Dr. Mancuso to obtain the background information, and would later submit reports to Dr. Mancuso on his findings.

The total cost would be \$500.00.

Yours very truly,

JOHN T. CANTLON & ASSOCIATES, INC.

OCCUPATIONAL HEALTH PROGRAM

Dear John:

This approves your request of November 21 that Mr. Lee B. Woodick of Chicago be brought to Lockland for a three-day survey of the plant December 17-19 at a cost of \$500.

It is understood that the purpose of the survey is review our situation as Mr. Woodick has already analyzed it, pinpoint things that are needed and to eliminate duplication and engineering studies and work that are not necessary.

Sincerely,

L. L. Pachstein
Assistant Secretary
