from the time I was with Ford Motor Company.

They have not supplied me documents since -- from the files since the time of my retirement in '87.

Q Well, were you aware that Ford received an August 8, 1975 letter from NIOSH, it is a dear colleague letter, and it talked about asbestos exposures from brake repair?

A There have been a number of similar-type letters, yes.

Q And I will be happy to show it to you if you would like.

Were you aware that NIOSH told Ford in August of 1975 that enough asbestos is preserved in the brake wear to produce significant exposures during certain brake servicing procedures?

A I would like to take a look at that, if I might.

Q Please. This is Plaintiff's Ford Exhibit Number 69, and I am referring to the highlighted section right there at the bottom of the third
