INTERROGATORIES

INTERROGATORY NO. 1:

State the name, address, job title, length of time employed by Defendant, and a year-by-year list of all other positions, titles, or jobs held when working for Defendant of each person who has supplied any information used in answering these interrogatories.

ANSWER:

Objection: To the extent that this interrogatory seeks a "year-by-year list of all of the positions, titles" etc. held of the person answering these interrogatories, this interrogatory seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is unduly burdensome to the extent that it seeks the identity of each person who has supplied any information for the use of answering these interrogatories. Based on the breadth of these interrogatories, it is anticipated that the work product of numerous individuals will be used for supplying answers thereto.

INTERROGATORY NO. 2:

State whether or not you are a corporation. If so, state your correct corporate name, the state of your incorporation, the address of your principal place of business, the name and address of the person or entity authorized to accept service of process on your behalf, and whether or not you have ever held a Certificate of Authority to do business in the State of Texas.

ANSWER:

INTERROGATORY NO. 3:

Has Defendant or any of its predecessor or subsidiary companies at any time engaged in the mining and subsequent sale of material containing asbestos fibers? If so, identify the location of the mine(s), the years of its operation, the type of asbestos mined and whether you sold any asbestos to any Defendants in the Dallas County asbestos litigation.

ANSWER:

Objection: This interrogatory is vague and ambiguous in its description of "Defendants in the Dallas County asbestos litigation." Should this interrogatory be taken literally, this interrogatory is also objectionable in that it is unduly burdensome in that it would require this Defendant to undertake research of

every lawsuit ever filed in Dallas County alleging asbestos exposure for the identity of every named defendant.

INTERROGATORY NO. 4:

Identify by name each product containing asbestos fibers that Defendant or any of its predecessor or subsidiary companies at any time manufactured or sold.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 5:

Identify by name each product containing asbestos fibers that Defendant or any of its predecessor or subsidiary companies at any time marketed or sold.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 6:

If the answer to one or more of the last three interrogatories is in the affirmative or lists any products, state as to each named product the following:

- A. As to each product, state whether such product was mined, manufactured, marketed, and/or sold.
- B. The names of the companies mining, manufacturing, marketing, and/or selling each product mined, manufactured, marketed, and/or sold.

- C. The trade or brand name of each of those products mined, manufactured, marketed and/or sold.
- D. The date each of the named products was placed on the market.
- E. A description of the physical (chemical) composition of each of the named products, including the type of asbestos contained in the product and the percentage of asbestos put in each product.
- F. The date each of the products was removed from the market and no longer sold or distributed and the reason or reasons therefor.
- G. The date asbestos was removed from such products, if ever, and the reasons therefor.
- H. A description of the physical appearance of each of the named products.
- I. A detailed description of the intended uses of the named products.
- J. Identify the last year that you sold each asbestos-containing product.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory seeks information of a proprietary nature, therefore it is privileged under the Texas Rules of Civil Evidence.

INTERROGATORY NO. 7:

Do any documents, including but not limited to written memoranda, specifications, recommendations, blueprints, or other written materials of any kind or character, relating to the design, preparation, or introduction into the market of the products listed in Interrogatory No. 6 still exist? If so, state:

- A. A description of each such document.

- B. The name, address, and job title of each person who currently has possession of each document, and where the documents are currently located.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party. For further objection, this interrogatory seeks information of a proprietary nature, therefore it is privileged under the Texas Rules of Civil Evidence.

INTERROGATORY NO. 8:

Before distributing, selling, or placing the products listed in your responses to Interrogatory Nos. 3-6 into the streams of commerce, were any tests conducted to determine potential health hazards involved in the use of, or exposure to, the materials such as asbestos, contained in those products? If the answer is affirmative, state:

- A. The names of the products tested and the date of each test.
- B. The name, address, and job title of each person conducting the tests or involved with conducting the tests.
- C. The results of the tests.

ANSWER:

Objection: To the extent that this interrogatory seeks information on anything other than asbestos, it is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence in the present cause of action. For further objection, this interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 9:

Do any documents, including but not limited to written memoranda, specifications, recommendations, blueprints, or other written materials of any kind of character, relating to the testing of the products referred to in Interrogatory No. 6 now exist? If so, state:

- A. A description of each such document.
- B. The name, address, and job title of each person who currently has possession of each document, and where it is presently located.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party. For further objection, this interrogatory seeks information of a proprietary nature, therefore it is privileged under the Texas Rules of Civil Evidence.

INTERROGATORY NO. 10:

Did Defendant or any of its predecessor or subsidiary companies make any design changes or modifications as a result of those tests described in responses to Interrogatory No. 8? If the answer is affirmative, state:

- A. The trade names of the products changed.
- B. The nature of the changes made and the date of such changes or modifications.
- C. The name, address, and job title of each person responsible for having caused a change to be made, or having made a change or modification.

ANSWER:

Objection: This interrogatory would necessarily seek the disclosure of proprietary information and is therefore privileged under the Texas Rules of Civil Evidence. For further objection this interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is

neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 11:

After releasing the products listed in Interrogatory No. 6 to the public, were any tests conducted on them to determine potential health hazards resulting from the use of or exposure to the materials, such as asbestos, contained in those products? If the answer is affirmative, state:

- A. The names of the products tested and the dates of such tests.
- B. The name, address, and job title of each person who conducted those tests.
- C. The results of those tests.
- D. Whether, as a result of the tests, any products were removed from the market.
- E. The names of all products removed from the market as a result of these tests.

ANSWER:

Objection: To the extent that this interrogatory seeks information on anything other than asbestos, it is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence in the present cause of action. For further objection, this interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 12:

Do any documents, including written memoranda, specifications, recommendations, blueprints, or other written materials of any kind or character, relating to the potential health hazards of the products listed in Interrogatory No. 6 now exist? If so, state:

- A. The name of each product.
- B. A description of each document and how it relates to each product.
- C. The name, address, and job title of each person who currently has possession of each document, and where it is presently located.

ANSWER:

Objection: To the extent that this interrogatory seeks information on anything other than asbestos, it is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence in the present cause of action. For further objection, this interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 13:

Did Defendant or any of its subsidiary companies make any design changes as a result of the tests discussed in your response to Interrogatories No. 10 or 13? If the answer is affirmative, state:

- A. The names of the products changed or modified.
- B. The name, address, and job title of each person responsible for having made a change or modification.
- C. The nature of the hazard or defect which resulted in such change or modification.

ANSWER:

Objection: This interrogatory would necessarily seek the disclosure of proprietary information and is therefore privileged under the Texas Rules of Civil Evidence. For further objection this interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does

not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 14:

Has Defendant or any of its predecessor or subsidiary companies at any time published or distributed any printed material, including brochures, pamphlets, catalogs, packaging or other written material of any kind or character containing any warnings concerning the possibility of injury resulting from the use of the asbestos-containing products listed in Interrogatory No. 6? If so, state:

- A. The names of each relevant product.
- B. The exact wording of each warning statement on each printed material.
- C. A description of the printed material other than the warning statement.
- D. The method used to distribute the warning to persons likely to use the product.
- E. The date each warning was first issued, distributed, or placed on packaging.
- F. The name, address, and job title of each person responsible for having drafted or issued the warning.
- G. The current location of any such printed material and the custodian thereof.
- H. The form in which such literature or printed material can be accessed, i.e., the manner in which such literature is indexed or stored.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 15:

Before 1970, had you received notice that any individual or individuals, other than those Plaintiffs who have filed personal injury actions in Dallas County, Texas, is or are claiming or has or have claimed an injury as a result of using asbestos products manufactured and/or sold by your company or any of its predecessors or subsidiaries before 1970? If so, state:

- A. The name and address of each claimant.
- B. The date of notice of each claim.
- C. A description of the claim.
- D. The type of injuries allegedly sustained.
- E. The name and address of each attorney who represents each individual making a claim.
- F. The style and court number of each claim.
- G. The disposition of each claim that has been settled or taken to judgment.

ANSWER:

Objection: This interrogatory seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 16:

Were your asbestos products distributed, marketed, packaged, labeled and/or sold by companies other than your own? If the answer is affirmative, list the names and addresses of each of those companies, and the products in question.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 17:

Did you or any of your predecessors, successors, or subsidiaries have any distributors or sales representatives of asbestos products in the States of Alabama, Florida, Mississippi, Oregon, Washington, Georgia, Tennessee, Texas and Virginia? If so, state:

- A. The name and address of each such distributor or sales representatives.
- B. The years in which such company or person distributed, marketed, or sold your products.
- C. What products were distributed, marketed, or sold and in what years.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters, locations or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 18:

List each employee (including only physicians and/or hygienists) who has acted in a medical advisory capacity to your company at any time during the past 40 years, including, but not limited to, physicians and industrial hygienists, and the current address, telephone number and job title of each of those individuals and who has, had or may have had any knowledge regarding the hazards of asbestos.

ANSWER:

Objection: This interrogatory by its very wording requires pure speculation on the part of this defendant. As such, it seeks information and is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is hopelessly vague in the use of the term "medical advisory capacity" in that it would include plant physicians employed to provide first aid services to the employees of this defendant. As such, it seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 19:

Does Defendant have in its possession any books, pamphlets, memoranda, or written materials of any kind or character that would indicate that asbestos fibers, when inhaled, can be hazardous to the health of human beings? If so, state:

- A. The name of each such publication.
- B. The date of publication and the names of the author and publisher (if any).
- C. The date received by Defendant, if known.
- D. The name, job title, and address of each person who currently has possession of each publication and its present location.

ANSWER:

Objection: To the extent that this interrogatory requires this defendant to incur and undergo extended research of any general medical or scientific text or publications that it may have, this interrogatory is unduly burdensome and overly broad.

INTERROGATORY NO. 20:

Has Defendant or any of its subsidiary or predecessor companies at any time been a member of any trade organization or association that published or disseminated any documents or information relating to the hazards of asbestos comprised of other manufacturers, miners, marketers, and/or sellers of asbestos products? If so, state:

- A. The name and address of each such association or organization.
- B. The dates during which Defendant or any of its subsidiaries or predecessors were members.
- C. The names and dates of any publications, minutes, or reports published, written, or disseminated by any of the named associations or organizations.
- D. Whether any of those publications are still in your possession, and if so"
 - 1. A description of the publications, including the date.
 - 2. The current location of such publications.

3. The custodian of such publications.
4. The method or manner in which such publications are maintained.

ANSWER:

Objection: This interrogatory is vague and ambiguous and difficult to understand. For further objection, this request is unduly burdensome and would require massive review and research of any literature provided by any and all trade associations for information that might possibly be responsive to this request. For further objection, this interrogatory is not restricted to subject matters, or time frames of relevance to the litigation to which this defendant has been named a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 21:

Identify by name and location each plant or manufacturing facility in which the products listed in your answers to Interrogatory Nos. 3-6 were manufactured, assembled, or prepared for sale or marketing, specifying which plants produced each item, the dates each plant is or was in operation, and the time span during which each named item was produced or manufactured.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 22:

Have printed sales materials been prepared by Defendant or any of its subsidiary or predecessor companies or their agents for purposes of marketing or advertising products containing asbestos? If so, state:

- A. The name, address, and job title of each person or entity who prepared such materials.
- B. The name, address, and job title of each person who currently has possession of such materials and their present location.

- C. The date the materials were prepared.
- D. The media used to disseminate the sales materials.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 23:

Have any written or printed materials or instructions of any kind or character been prepared by Defendant or any of its subsidiary or predecessor companies or their agents indicating how asbestos products should be used and maintained? If so, state:

- A. The name, address, and job title of each person who prepared such materials or instructions or assisted in their preparation.
- B. The name, address and job title of each person who currently has possession of such materials or instructions and their present location.
- C. The dates of distribution or use and the manner in which such materials or instructions were distributed to purchasers of Defendant's products or those of its subsidiaries or predecessors.
- D. The year each such written material or instruction was prepared and disclosed to potential consumers.

ANSWER:

Objection: This interrogatory is not restricted to either subject matters or time frames of relevance to the litigation to which this Defendant has been made a party. Therefore, this seeks information that is neither relevant, nor reasonably calculated to lead to the discovery of admissible evidence. For further objection, this interrogatory is overly broad and unduly burdensome in that it does not restrict the subject matter of the interrogatory to materials of relevance to the litigation to which this Defendant has been named a party.

INTERROGATORY NO. 24:

Does Defendant have insurance policies that might cover the claims made by Plaintiffs in these cases: If so, list the name of each insurance carrier, the amount of initial coverage, amount of coverage remaining at the present time, and the effective dates of each policy. (If properly answered, this Interrogatory need not be supplemented as to the remaining amount of coverage).

ANSWER:

Objection: The Texas Rules of Civil Procedure limits discovery to the existence and contents of an insurance agreement.

INTERROGATORY NO. 25:

As to the disease asbestosis, state:

- A. The date on which Defendant or its subsidiary or predecessor first learned that such disease was caused by inhalation of asbestos fibers by humans.
- B. How Defendant became aware of the existence of the disease.
- C. Who within the company first discovered, recognized or understood the adverse consequences or effects of the disease and/or of asbestos exposure.
- D. What information was disseminated within Defendant's company or its subsidiary or predecessor regarding such adverse consequences or effects.
- E. Whether any such information is still maintained by Defendant or its subsidiary or predecessor in any written form.
- F. Who is the custodian of such information.
- G. The date on which you first received knowledge or information that asbestosis was caused by inhalation of asbestos fibers.

ANSWER:

Objection: This interrogatory seeks a medical or scientific conclusion. For further objection, this interrogatory calls for pure speculation.

- E. Whether any such information is still maintained by Defendants or its subsidiaries or predecessors in a written form.
- F. Who is the custodian of such information.
- G. The date on which you first received knowledge or information that lung cancer was caused by inhalation of asbestos dust and fibers.

ANSWER:

Objection: This interrogatory seeks a medical or scientific conclusion. For further objection, this interrogatory calls for pure speculation.

- D. What information was disseminated within Defendant's company or its subsidiary or predecessor regarding such adverse consequences or effects.
- E. Whether any such information is still maintained by Defendant or its subsidiary or predecessor in a written form
- F. Who is the custodian of such information.
