

1 to stay where it is put, and the air essentially will
2 circle that space until new air enters that space that
3 causes a flushing out.

4 Q Now, this article was about 1977; is that
5 correct?

6 A Yes, sir, that is right.

7 Q Are you familiar with an article published
8 in the American Industrial Hygiene Association Journal
9 -- in fact, let me ask you, what is that journal?

10 A That is a journal of our professional
11 organization.

12 Q That is the organization we talked about
13 earlier?

14 A Yes, sir.

15 Q There is an article published in 1987 by an
16 author named Kaupinen?

17 A Yes.

18 Q What is that article about?

19 A That is about exposures to asbestos in more
20 recent times and Mr. Kaupinen, K-a-u-p-i-n-e-n, and
21 these were measurements that were made I think in
