

INTER-OFFICE LETTER

FROM	Cleveland	OFFICE Coatings Operations	DEPT
FOR Cleveland -2M	OFFICE Tech. Dept. Ctngs.	DATE	August 5, 1971
MR J. J. Lenzotti		SUBJECT	SWP House Paint - Alkyd Version
REFER TO LETTER OF		DICTATED BY	

As part of the Lead Elimination Program, SWP Chelsea Gray A2 A 30, Sage A2 G 103, Sandpiper A2 A 57 and Peace Yellow A2 Y 60 will be produced under the Alkyd Version effective September 1, 1971. In addition, parallel raxes for Lowe Brothers, Acme, John Lucas and American Hardware will also be filled under the new non-lead containing formula. This information has already been published by the Product Identification Department in Product Information Bulletins #43 and #44 dated July 27, 1971.

Labels for the S-W products should be ordered from North Olsted immediately under the master rex number. Likewise, labels for the parallel products should be ordered under their rex number (appearing in Product Information Bulletin #43) specifying "New Analysis."

Cleveland Technical Service will release the new formulas for the master raxes on August 23. The use of these new formulas must be coordinated with the new labels. If there is any problem contact this office.
