Dear Deputy Director Sheehan:

Please see the attached invitation from the Oregon Cattlemen's Association and the Public Lands Council to visit Oregon and survey the effects of wolf depredation on livestock producers. While this is a significant problem for ranchers nationwide, west-central Oregon is ground zero with over sixty depredation reports filed across eleven counties during 2017 alone. Thank you for your consideration of this matter. Please feel free to contact our office or the Oregon Cattlemen's Association if you have any questions or concerns.

Thank You,

Tanner J. Beymer
