MAREMONT'S RESONSES TO PLAINTIFFS'
REQUESTS FOR PRODUCTION OF DOCUMENTS
PROPOUNDED TO MAREMONT CORPORATION

Defendant Maremont Corporation ("Maremont") hereby responds to Plaintiffs' Requests for Production of Documents ("discovery requests") without conceding, in any fashion, that any of the discovery requests request information that is either relevant or admissible as evidence in this action. Furthermore, Maremont has not completed its investigation of the facts relating to this case and has not completed its preparation for trial. As such, Maremont's responses to these discovery requests are given without prejudice to Maremont's right to produce evidence of any and all subsequently discovered facts and/or documents at the time of trial or at any other time.

PRELIMINARY STATEMENT

Maremont, One Noblitt Plaza, Columbus, Indiana 47201, incorporated in the State of Delaware, is primarily engaged in the manufacture and distribution of automotive exhaust systems, shock absorbers, MacPherson struts and related hardware and parts.

On or about December 15, 1953, Maremont purchased the assets of a company with a manufacturing facility located in Paulding, Ohio, known as the Grizzly Manufacturing Company ("Grizzly"). During its ownership of the Paulding facility, Maremont manufactured drum brake linings, clutch facings and disc brake pads. Maremont sold this division on or about June 30, 1977, to Nuturn Corporation.

Soon after the purchase by Nuturn, Nuturn closed the Paulding facility and transferred the manufacturing operation to a facility in Smithville, Tennessee. At this time, Maremont does not have in its employ any person or persons who previously worked at the Paulding facility. Furthermore, it appears that very few Maremont employees continued employment with Nuturn. Very little documentation exists within Maremont concerning the Paulding, Ohio operation. Any documentation pertaining to the site that was not discarded by Nuturn upon its move to Smithville would presumably be under the custody and control of Nuturn Corporation.

GENERAL OBJECTIONS

1. Maremont objects to plaintiffs' discovery requests on the grounds that they are overbroad, vague, unduly burdensome, not relevant and not reasonably calculated to lead to the discovery of admissible evidence. Plaintiffs' discovery requests have been propounded indiscriminately to every defendant without any attempt to tailor them to any individual

defendant. Without waiving this objection and subject to the objections that follow, Maremont is providing information in response to plaintiffs' discovery requests.

2. Maremont objects to plaintiffs' discovery requests on the grounds that they improperly attempt to shift the burden of establishing product identification and causation from plaintiff to Maremont.

3. Maremont objects to plaintiffs' discovery requests to the extent they seek information relating to sales of asbestos-containing products by Maremont to any entity or entities other than entities specifically identified by plaintiffs as having been in the chain of distribution of an asbestos-containing product from Maremont to plaintiffs or plaintiffs' employers.

4. Maremont objects to plaintiffs' discovery requests to the extent they seek information protected from discovery by the attorney-client privilege or the work product doctrine.

5. Maremont objects to plaintiffs' discovery requests to the extent they seek disclosure of information generated by persons other than Maremont that has come into the possession of Maremont's counsel during the course of discovery and trial preparation in asbestos-related litigation.

6. Maremont objects to plaintiffs' discovery requests to the extent they seek information relating to products of other companies.

7. Maremont objects to plaintiffs' discovery requests to the extent they seek information subsequent to Maremont ceasing production of any asbestos-containing product.

8. Maremont objects to plaintiffs' discovery requests to the extent they seek information that is not under Maremont's custody or control or which is within the public domain or otherwise equally available to plaintiffs as to Maremont.

9. Many of the events about which plaintiffs' discovery requests inquire occurred forty or more years ago. Accordingly, each response that follows is qualified by the fact that through the passage of time, information and documents that once existed may no longer be available.

10. Maremont does not concede that any of its responses to plaintiffs' discovery requests are or will be admissible evidence at a trial of this action, and Maremont does not waive any objection, on any ground, whether or not asserted herein, to the use of any such answer at trial.

11. To the extent applicable, Maremont incorporates by reference each of its objections in each response that follows and reserves the right to amend or supplement its responses to plaintiffs' discovery requests to reflect information which may become available to it up until the time of trial.

OBJECTIONS TO DEFINITIONS AND INSTRUCTIONS

12. Maremont objects to the definitions supplied by plaintiffs with regard to these interrogatories and document requests on the grounds that the definitions are overly broad, vague, and often inconsistent with the normal usage and meaning of such words. These definitions constitute an unreasonable expansion of the requests themselves. Maremont has therefore responded to the interrogatories and document requests in the manner consistent with a normal understanding of the language used in the response and to the extent necessary to fairly and fully respond to the interrogatories and requests.

13. Maremont objects to plaintiffs' definitions on the grounds that the terms "product containing asbestos fibers," "asbestos-containing products" and "asbestos products" are so broad,

vague, ambiguous, uncertain, and calls for speculation, that Maremont cannot determine the precise nature of the information sought, and therefore cannot respond without an unreasonable risk of inadvertently providing a misleading, confusing, inaccurate, or incomplete response.

14. Maremont objects to plaintiffs' definitions to the extent those definitions and instructions request Maremont to make any inquiry beyond that which is required by the Ohio Rules of Procedure or to the extent they seek to include documents not within Maremont's custody or control.
