The Director,
Australian Blue Asbestos Ltd.
PERTH, W.A.

P. No. 32.
23rd April 1957.

Dear Sir, —

SIXTH EMPIRE MINING CONGRESS (P.46). We agree to Mr. Thomas leaving Wittenoom on Saturday 31st August so that he will arrive in Vancouver for the inaugural meeting on the 8th September. We agree also that he should leave Canada as soon as he has attended the meeting at Ottawa on the 30th September and visited the asbestos operations at Thetford.

We do not particularly wish Mr. Thomas to call at Sydney on his return journey but we agree that he may return via London and Singapore to Perth arriving at Perth on the 8th October.

As it may be necessary for you to go overseas in October we do not consider Mr. Thomas should return any later than this date.

There are two asbestos centres not mentioned in Mr. Thomas' schedule, at Cassiar in British Columbia and Johns-Manville's Murro mine at Matheson, Ontario. It may be preferable for Mr. Thomas to visit one of these operations in addition to the Thetford asbestos district in lieu of some of the metalliferous mines.

Yours faithfully,

Managing Director.
